AI in Project Management

Artificial Intelligence is transforming project management, reshaping how projects are planned, executed, and delivered. In today's dynamic business environment, the ability to apply AI effectively is crucial for enhancing efficiency, accuracy, and adaptability throughout every stage of the project lifecycle.

Many project professionals recognise AI's growing influence but feel unprepared to fully leverage its potential. This gap has created a strong demand for project managers skilled in AI-enabled risk analysis, forecasting, automation, and decision-making.

The IPM AI Project Professional® certification equips you with practical skills and applied knowledge to confidently integrate AI into your project workflows. From planning and execution to monitoring and closure, this certification helps you stay competitive, increase efficiency, and deliver stronger outcomes in an AI-driven world.

Gain a competitive advantage by demonstrating your readiness for the future of project management. This certification enhances your professional profile and opens doors to advanced career opportunities in an AI-transformed industry.

Why study at the Institute of Project Management?

Founded in 1989, the Institute of Project Management was the first Irish organisation promoting specialised project management education, certification, membership and research in Ireland.

The Institute has been actively involved in bringing to its alumni world-class certification programmes offered by globally recognised project management certification associations – [International Project Management Association \(IPMA®\)](#) and [Project Management Institute \(PMI®\)](#).

Our direct involvement with the international project management community places us in a unique position to give you and your organisation the capability to adopt and maximise the best project management has to offer.

Working closely with a faculty of expert practitioners and leading academics, the Institute promotes the very best current practice, theory and applied skills in project management for individuals and organisations not only in Ireland, but also around the world.

About the Course

Duration

Full Time | 2-Day
14 hours of learning
2 x 7-hour training sessions

Study Options

Online
Classroom
On Demand (Subtitles Available in Arabic, French, Chinese & Spanish)

The IPM AI Project Professional® certification is designed for professionals who want to stay ahead in a rapidly evolving project environment by harnessing the power of Artificial Intelligence. It offers a practical and accessible entry point into AI for project managers seeking to modernise their skill set and remain competitive.

This course equips you with the tools and techniques to apply AI across the entire project lifecycle—from initiation and planning to execution, monitoring, and closure. You'll gain hands-on experience through live demonstrations, real-world case studies, and interactive exercises.

Delivered over two days in a live-online format, the programme combines expert instruction with practical learning. You'll benefit from leading AI and project management practitioners who bring deep industry expertise to the classroom. With access to the Student Hub, you can review class recordings, prepare for the certification exam, and stay connected to your instructors and peers throughout your learning journey.

Study Options

IPM AI Project Professional® certification is offered in three different formats, each with its own benefits: **Live Online, Classroom, and On Demand.**

Live Online

Classroom

On Demand

Programme Structure

This certification is designed to provide a comprehensive understanding of how Artificial Intelligence is transforming every phase of project management. Each module focuses on practical applications of AI tools and techniques to enhance your skills and project outcomes. The course also addresses critical ethical considerations and explores future trends shaping the field.

Introduction to AI in Project Management

- Explore the basics of AI
- Understand its growing role in PM
- Recognise key AI concepts relevant to project management

Initiating Projects with AI

- Learn how AI can enhance project charter creation
- Improve stakeholder management using AI
- Identify AI tools that support project initiation

AI-Driven Project Planning

- Discover how AI can improve resource allocation
- Use AI for scheduling optimisation
- Learn AI techniques for risk prediction

Project Execution with AI

- Understand how AI can streamline project execution
- Track progress with AI tools
- Manage issues in real time using AI

Monitoring and Controlling Projects with AI

- Utilise AI to track KPIs
- Predict risks with AI analytics
- Receive predictive alerts for proactive management

Closing Projects with AI

- Learn how to automate project closure
- Use AI for lessons learnt documentation
- Track project benefits through AI systems

AI and Ethics in Project Management

- Gain an understanding of the ethical implications of AI use
- Explore issues such as AI bias
- Study governance frameworks for AI in projects

Future Trends in AI for Project Management

- Explore emerging trends in AI
- Understand future predictions for PM
- Learn about AI agents and autonomous systems

Who should apply?

Professionals across industries are increasingly expected to deliver smarter, faster, and more data-informed projects. The IPM AI Project Professional® certification is ideal for those looking to enhance their capabilities with AI-driven techniques and stay ahead in a changing project landscape. Participants come from sectors such as IT, Engineering, Public Service, Finance, Pharmaceuticals, and more—each aiming to lead with innovation and confidence.

The course is perfect for:

- Project Managers, Project Leaders, and PMO members seeking to enhance their skills with AI-powered strategies
- Project management professionals preparing to lead AI-enabled initiatives
- Professionals aiming to integrate AI tools into existing project workflows
- Individuals looking to gain a competitive edge through advanced, practical AI applications in project environments

Assessment and Course Outcomes

Assessment is completed through a comprehensive final examination at the end of the course. The exam consists of multiple-choice questions (MCQs) with a strong focus on scenario-based problem-solving to ensure a practical understanding of AI integration in project management.

To support your exam readiness, you will receive full access to preparation resources throughout the course – including practice quizzes and a dedicated question bank.

Course Outcomes

Upon successful completion, you will receive the following credentials:

INSTITUTE
PROJECT
MANAGEMENT

IPM AI Project Professional® Certification

Obtain a professional certification from IPM, a trusted global leader with over 35+ years of experience in project management education. Recognised by more than 50,000 professionals worldwide, the IPM credential validates your ability to effectively integrate AI into project management, distinguishing you in a rapidly changing industry.

What our students say about us

Excellent programme, really well run

I took this course during COVID, and the Institute did everything they could to help ensure we completed the course with as little disruption as possible. All the instructors are very knowledgeable, and I would recommend this course to anyone who is interested in Project Management.

Jimmy O'Connell

Excellent CPD training provider

I have now taken the intro to project management and the diploma and really enjoyed both courses. Working in the NGO sector I believe all senior managers should have a grounding in PM and I will be recommending this qualification and provider to the managers I support.

Brenda Kane

Lots of experienced and informed tutors

The Institute helped me to integrate project management methodologies into the Higher Education sector. Highly recommended.

Mark O' Connor

The course was very organised and well managed!

Really great college and the course was very organised and well managed! They really prepare you for the exams and assignments.

Jenny Gibney

Wonderful experience

Wonderful experience on the Diploma in Project Management with the Institute of Project Management. Thank you to Ed and all his team for a great learning experience.

Adrienne Fleming

Great speakers throughout

Highly recommended. The course was very informative and presented by great speakers throughout.

Deirdre Gaughran
