# IPM PMO Project Professional®

The use of PMOs is widespread across industries globally. More and more PMOs are focusing on facilitating effective decision-making around the organisational programmes and portfolio of projects, prioritising investment and adjusting project delivery activities in an Agile manner to adapt to the changing strategic requirements of the business.

The PMO is key to strategy execution and results delivery. Therefore, they need a plan to enable alignment with the team, department, business unit, and overall organisational strategy. A roadmap that fits within the organisation needs to be followed to avoid becoming

Consumed with operational commitments. The IPM PMO Project Professional® certification aims to equip you with the knowledge and tools you need to establish, improve, and work with a strategic PMO by design, not by default.

## Why Study at IPM?

Since 1989, IPM has been actively engaged and involved in bringing world-class certification programmes offered by globally recognised project management certification organisations such as IPMA (Member Association & Certification Body), PMI (Authorised Training Partner), and PRINCE2® (Accredited Training Organisation).

We have also partnered with Ireland's second largest University, Technological University (TU) Dublin, meaning we can offer Bachelor & Master's levels programmes. This affiliation links us to the European University of Technology (EUt+).

Our direct involvement with the international project management community places IPM in a unique position to give you and your organisation the capability to adopt and maximise the best project management has to offer.

Working closely with a faculty of expert practitioners and leading academics, IPM promotes the very best current practice, theory and applied skills in project individuals and organisations worldwide.

**35+ Years of Experience**

**50,000+ Professionals Trained**

**10,000+ Certified Project Managers**

**Internationally Recognised**

# About the Course

## Duration

Full-time | 1-Day  
7 hours live learning

## Study Options

Online | Classroom | On Demand

The IPM PMO Project Professional® certification course demonstrates what it takes to improve organisational alignment and deliver on your strategic objectives by focusing on doing the right projects and doing them the right way to deliver lasting results.

It aims to help you overcome common pitfalls, such as:

- Many projects competing for limited resources.
- Lack of cross organisational integration.
- Failure to deliver benefits and value.
- No strategic alignment.

Learn from the certified instructor with over 25 years of hands-on experience in setting up and running PMOs of all types in multiple industries. By the end of this certification, you will learn how to improve organisational strategic alignment and accomplish your goals by emphasising "doing the right projects and doing them the right way" through hands-on exercises and case studies.

# What our students say about us

## Fantastic courses provided by a diverse team

Fantastic courses provided by a diverse team who specializes in different aspects of Project Management. It gave me confidence to move forward in my career as a project manager and have recently recertified they are an organization I trust.

**Niall Gilligan**

---

## I'd highly recommend the Institute

I'd highly recommend the Institute. I've been working in Tech for 8 years now and the AGILE PM class turned into a huge unlock for me, (...) Now I understand the process much better. It's all fell into place and I can utilise these new skills right now to help the company move ahead faster and with less wasted time and effort.

**William G**

---

## The support and guidance provided was excellent

I undertook a course with the Institute in April 2021 and the support and guidance provided was excellent. The course content and delivery far surpassed my expectations, and I would recommend the Institute to anyone wishing to commence or continue their Project Management education.

**Peter Nolan**

---

## The Course was Very Organised and Well Managed!

Really great college and the course was very organised and well managed! They really prepare you for the exams and assignments.

**Jenny Gibney**

---

## Excellent course content, and preparation for exam

Excellent course content, presenter and preparation for exam. We had a small class from different backgrounds: HR, IT, SALES Product Owner. I highly recommend them, and they offer considerable value add. Had a query and head of course (was not expecting it) took a short phone call out of hours so that will tell you the customer mantra. Go for it!

**Barry McBreen**

---

## Great Speakers Throughout.

Highly recommended. The course was very informative and presented by great speakers throughout.

**Deirdre Gaughran**

---
